Professional golfer Vijay Singh and his wife Ardena Seth have purchased a \$5.675 million penthouse condominium at 555 West 59th Street in Lincoln Square.

The 3,369-square-foot duplex unit in the newly constructed Element

near West End Avenue has four bedrooms and a wood-burning stove and was listed in June at \$6.9 million by Brown Harris Stevens, according to Streeteasy.com.

The 46-year-old golfer signed a contract for the unit July 1 and then closed on the sale July 23, according to city property records posted today.

The 34th- and 35th-floor apartment has views to the north, east and south and includes a 1,463-square-foot terrace, the listing said.

He has come a long way since the first time he came to Australia...when he probably did not have enough money to pay for a top hotel room.....never mind the phone bill to keep in touch with family at home. Maybe this new joint is his Company office now that he has a new management...two friends...at least he is looking after his mates.
